For example, painted face frames may eventually have visible cracking around the joint area and cabinet colors may darken or lighten over time. Sunlight, smoke, household cleaners and other environmental conditions may also affect the color match over time. These variations are considered to be the nature of the material in relation to their environmental exposure and are not covered under this warranty.

East Front Cabinet Manufacturer reserves the right to alter design, specifications and material without obligation to make similar changes to products previously manufactured.

The repair(s) or replacements(s) are contingent upon the current product offerings of styles and construction options within the East Front Cabinet Manufacturer products at the time of the warranty claim. If a warranty claim is filed after a East Front Cabinet Manufacturer product becomes obsolete; East Front Cabinet Manufacturer reserves the right to honor the warranty in one of the following fashions:

To replace the affected component with a new component of the same style.

To replace the affected component and any other component(s) in the residential application to achieve a uniform appearance with a similar and comparable product style of the originally purchased style.

If components are replaced, East Front Cabinet Manufacturer cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the components in the residential application. This is due to the changes that occur during the woods' natural aging process, affecting its color and grain.
